Key areas of expertise

Cross-platform mobile applications (ReactNative)

Web frontend development

Technical Skills

Languages JavaScript, TypeScript, Objective-C, Java

VCS Git

OS macOS, iOS, Android

Development tools VS Code, Xcode, Android Studio, Emacs

Experience

Software developer

Nov 2019 - Present

EverX (former Tonlabs)

<https://everx.dev>

Ever Surf

<https://ever.surf>

Technologies - ReactNative, TypeScript, Objective-C, Java.

The company itself develops a blockchain Everscale, and our team provide a client (in blockchains they call it a wallet usually, though it's more than just a simple wallet). The app is built for iOS, Android and web, from almost identical codebase (Code sharing is more than 90% across all platforms). I mostly work on UI and performance issues. Whenever we had to overcome out-of-box limitations of RN I was the person to resolve that issues due to deep expertise in RN internals.

Design system

<https://uikit.ever.surf>

Technologies - ReactNative, TypeScript, Objective-C, Java.

At some point I became a lead developer for design system - an internal product for our developers, that it's a set of components compliant with our design. It helps to build quality interfaces, that doesn't require from all developers to have a deep understanding of RN internals.

Software developer

Jan 2017 - Nov 2019

EPAM Systems, St. Petersburg, Russia

<https://epam.com>

Multiple projects:

PoC of a mobile application to work with bluetooth devices (tonometers and pill devices).

Technologies - ReactNative, JavaScript.

Finished an existing application to present to a customer.

PoC of a mobile application for medical researches.

Technologies - ReactNative, JavaScript.

Maintained an existing application to present to customers.

myPH, miHP

<https://itunes.apple.com/ch/app/myph/id1438106777>

Mobile applications to monitor client's medications.

Technologies - ReactNative, TypeScript, Fastlane, Objective-C, Java.

I was (mostly) a team of one, responsible for the whole delivery chain, from estimations to a presentation to a customer, negotiated with customers about features and presented results of the development. Also I had been maintaining CI (Jenkins) and constantly improved our build system.

Frontend software developer

Jul 2016 - Dec 2017

OOO "CNS", Moscow, Russia (remote position)

<https://domclick.ru>

Mortgage service

The main idea behind the project was to reduce offline effort for a client to get a mortgage.

Technologies - JavaScript (React, Redux), Docker.

I developed a frontend part of ipoteka.domclick.ru. Worked on one of agile teams. I was responsible for a full developing cycle, from estimations to delivery. My biggest achievement was frequent releases (at some point it was almost every day, though mostly few times a week). I worked tightly with QA engineers as quality of my was one of my direct responsibilities.

Frontend software developer

Jun 2015 - Jun 2016

Calvera, St. Petersburg, Russia

<http://calvera.su>

Multiple projects:

Real estate search service

The service was built around an idea of a detailed view of real estates with detailed description, lots of photos and blueprints.

Technologies - JavaScript (backbone, marionette, virtual-dom).

I worked on key area of the project - the detailed view of a real estate object, I created almost all functionality on frontend side for the page. Worked with junior developers at different time of the project. Setted up an environment for the team (a build system and etc.).

Book reader

Our investor had a book and wanted to have a mobile application for it.

Technologies - ReactNative, ClojureScript.

Built a complete application for iPad.

Junior software developer

Jan 2014 - April 2014

ICreative, Omsk, Russia

Multiple projects

Technologies - JavaScript, PHP.

Worked in a small outsource team. Helped senior colleagues with maintaining existed projects and developed new ones. Learned to work with JS and PHP. Tried to solve tasks myself under supervision of the steam-lead.

Education

UNIVERSITY

Irkutsk State University of Railway Transportation

Sep 2009 - Jun 2014

Engineer
